

POPULATION & EMPLOYMENT FORECAST AT A GLANCE

This forecast gives planners a sense of what **South Maui's population might be by 2045**. Forecasting population helps us figure out **how much housing, infrastructure and facilities we need to plan for to support that population**.

Projected growth by 2045:

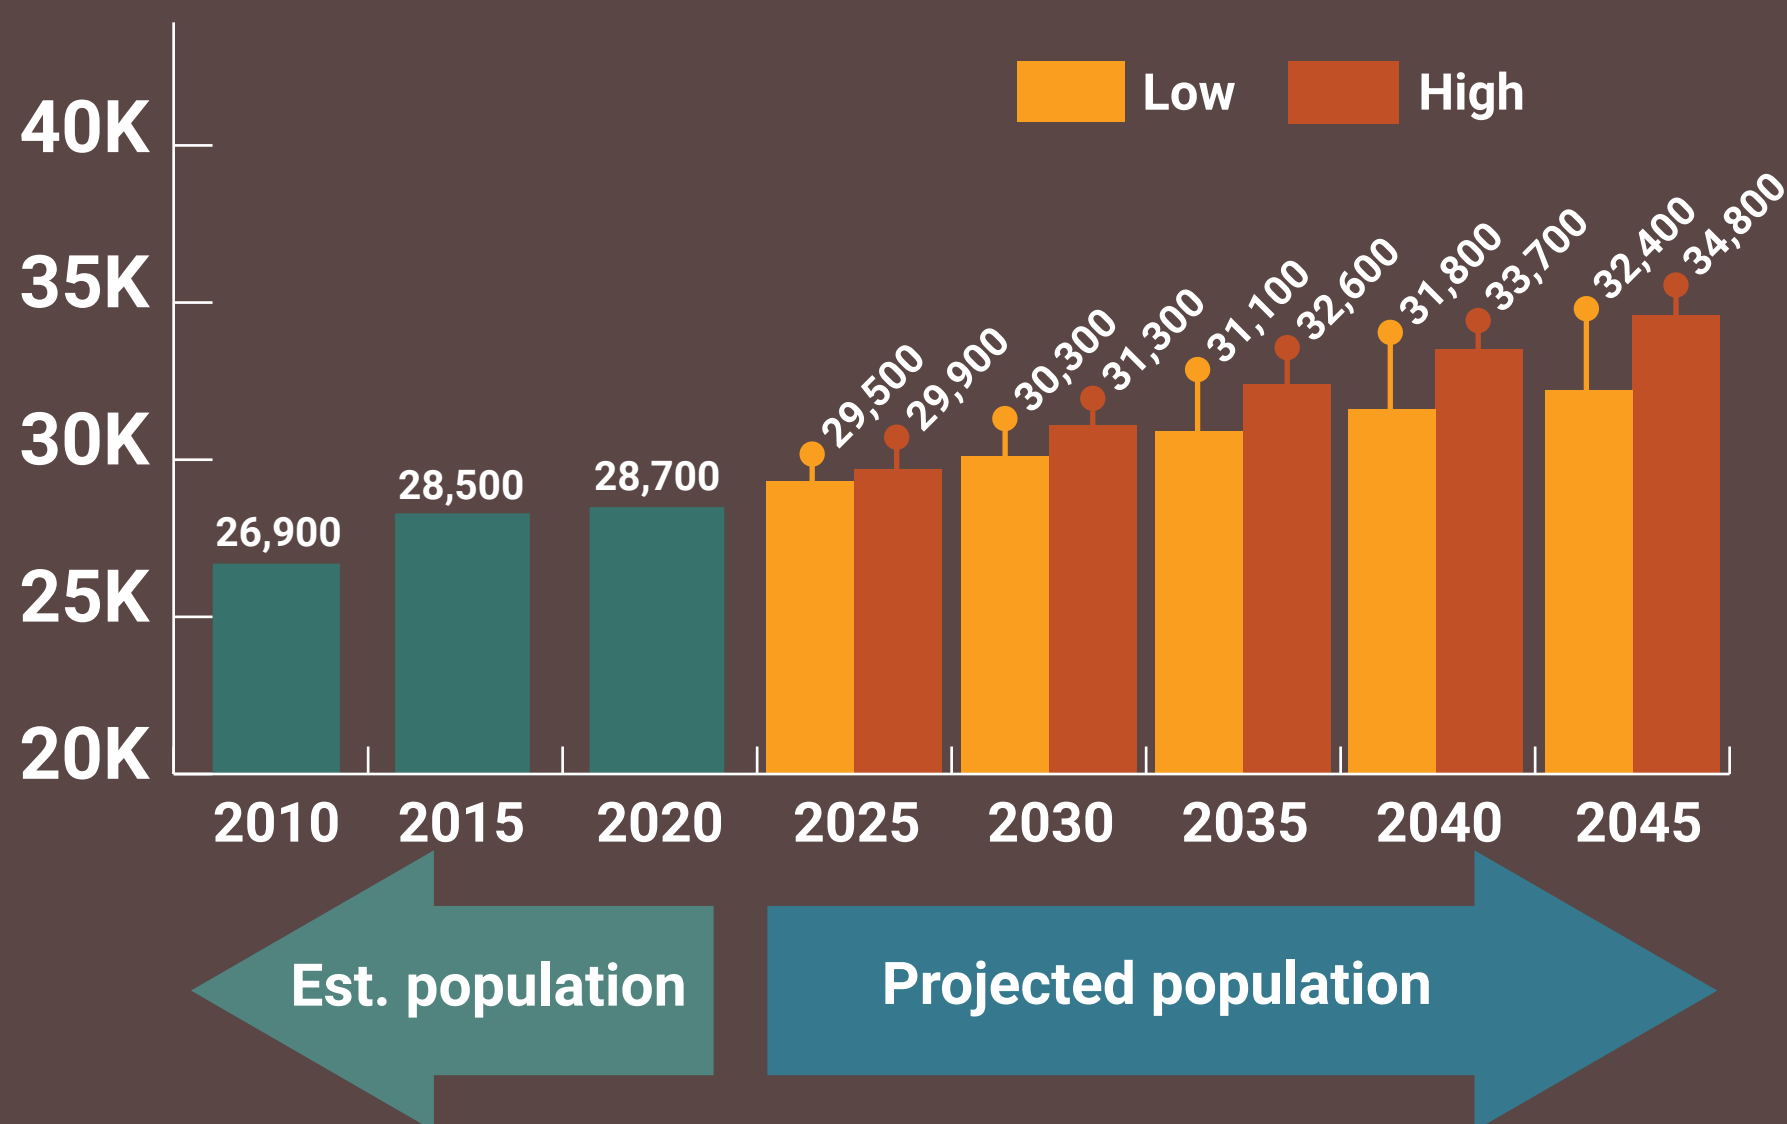

Housing needed by 2045:

Population projections are best guesses for the future, based on **historical trends**. Given the uncertain **long-term impacts of the COVID pandemic**, forecasting is even more challenging.

Projected Population Growth in South Maui

South Maui's population in 2045 will depend on many factors, including how the economy recovers after the pandemic and the steps we take to implement the policies and programs in the updated South Maui Community Plan.

Like population projections, **employment projections** are based on **historical trends** and our **best guess for the future post-COVID**.

Projected job growth by 2045:

Future job growth in South Maui will depend on policies, programs and unknowable economic circumstances.

Keep in mind, population and employment projections are not a target; they are only a part of the information that guides the community and planners when we plan for the future.

Projected Job Growth in South Maui
