Plan is reaction not visionary

Hi,

Plan as submitted should go back. It does accommodate short term developer wishes and community knee jerk to that. However it is at most a 5 year buildout document not a plan what would be DESIRABLE next decade or two. It is missing many key aspects. Most telling and notable is high-school bridge over highway. I'd spend more time on this but seems massive community longer term needs yet again being ignored to patchworks.

Regards

Pat Grant
