DATE RECEIVED: 8/18/2023 via email

Simple one thought message.

Can you see the correlations between the mauka lands of Lahaina Town and Maalaea Village with regards to wildfires?

The Maalaea Mauka/Pohakea lands create the very same hazards for Maalaea as the dry tinder filled sugar lands above Lahaina.

Please designate the parcel to open space. This land has already proven itself to be a fire prone area. It is an extremely poor location for residential development if any kind.
