AGENDA ITEM: C.1) Subarea 1: Mā'alaea/Keālia

Please do not put houses on this site. It is in a high-risk fire area and should remain open or zoned for agriculture. Additionally, it will change the bucolic nature of Maalaea Village. My wife and I have spent over 30 years in our condo at Hono Kai and would hate to see this beautiful area turned into just another place for the rich to vacation.

In light of the recent horrendous fire that destroyed Lahaina, please don't up this part of our special island at risk as well.
