Aloha CPAC Members,

Please do not let the Planning Department cut the public off from your weekly proceedings by ending the coverage by AKAKU. It's ridiculous for the Planning Director to eliminate this free coverage and certainly contributes to the lack of transparency that seems to be an on-going contentious issue between the public and Planning Department. Along with the absence of Corporation Counsel at your meetings, this is an outrageous decision by Director Aoki and indicative of a lack of respect for the citizens of Maui. Your refusal to meet until both are reinstated would go a long way toward correcting this misguided direction the CPAC has taken under the influence of our current Planning staff.

Mahalo,

Kelly T. King
