I am a resident of Kihei and I urge you to return to the previous plan which limits the use of North Kihei land in the area of proposed commercial changes. Please no more urban expansion for Kihei. We are a delicate area and suffer from egregious affects from drainage, flooding and traffic. Have we not learned anything in the past few years? I thought there would be a halt to the expansion that was so talked about during COVID but it seems the \$ is more important than the island. Please stop this proposed change.
